The Rockefeller foundation has already approved of the plan and is giving \$25,000 to foster this Orville C. Stanbra work with more money to come.

The proposal to build these teachers' cottages all over the land follows out the idea that has already been carried into extensive suc :ess by the state of Washington.

ed if the teachers of the nation's country districts will be able to secure better teachers, avoid the schools are always in a torn-up these of Stanling, N. M. Luther C condition. As Secretary Kellogg phrases it in his work, which constitutes a survey of the movement and its possibilities.

"Under present circumstances, the teaching of a country school often becomes a temporary expedient for the teacher the first term after getting a certificate, and ambitious teachers who are anxious to grow in their profession, and make something of themselves, go Lovington, Pharmacy to the city schools just as soon as possible, where living conditions are better. The country schools are always left with the largest propotion of young, inexperienc-

ed, poorly trained teachers." Mr. Kellogg also urges that the teachers cottages, or as he calls them, teacherages, should be models of sanitation, artistic, though inexpensive, and so constructed that they may be not only homes, put real social centers for the rurat neighborhoods. In order to further this plan of properly caring for the teachers, the lumberman's organization is ready to prepare plans to assist rural commities in providing their teachers with the kinds of homes which have proved satisfactory in Weshington, and in the other more scattered localities where they have been built. New Mexico is activated as one of the first states for the general introduction of this mew idea of a teacher's cottage for new idea of a teacher's cottage for the State Land Office this 10th day of Merch.
